

LEBANON, KY.,

Wednesday Morning, Oct. 1. 1856.

## Democratic Ticket.

FOR PRESIDENT:

**JAMES BUCHANAN,**

Of Pennsylvania.

FOR VICE PRESIDENT:

**J. C. BRECKINRIDGE,**

Of Kentucky.

## Face the Music.

A gentleman of small means offers to bet as follows:

\$50 that Buchanan will obtain the electoral vote of Kentucky;

\$20 that Buchanan will get more electoral votes than Fillmore;

\$20 that he will get twice as many electoral votes as Fillmore;

\$20 on each of the following propositions: That Buchanan will get three times, four times, five times, six times as many electoral votes as Fillmore;

\$20 that no one can name any State in the Union that will cast its electoral vote for Fillmore;

\$20 that I can name seven States that will go for Buchanan, for every State any one can name that will go for Fillmore;

\$20 that Buchanan will get his own State, and \$10 that Fillmore will not get his own;

\$20 that Breckinridge will get his State, and \$10 that A. J. Donelson will not get his.

All of these propositions to be taken together.

Although the editor of the Louisville Journal emphatically declared that James Buchanan was off the track for the Presidency, some weeks since; yet he still continues to defame him. Art thou a Jewell, Oh, consistency? As the editor of that tribulated sheet has self-appointed himself as expounder of the tenets of the know nothing party generally, could he not enlighten us of the "backwoods," as to what he and his party are driving at. We wish to know. That Fillmore has any chance for the Presidency, no k. n. has, in reality, the slightest idea; yet, with a spirit worthy of a better cause, they stick to him through thick and thin. The Journal seems to be their "Text Book" on all occasions. Whigs, did he not deceive you in '52?—yes, has he not deceived you before? We talk not to the members of the midnight, oath-bound party; but to those who have not as yet joined it. We would wish to address those who have, hitherto, acted with the National Whig party: those sterling men, who advocated the principles of old Henry Clay; which was, no difference between the North and the South. The men who have joined the k. n. party, and who still stick to it in its forlorn and sinking condition will not be influenced by anything we can say.

## Public Speaking.

JOHN Y. BROWN, Esq., the young, talented, and eloquent champion of Democracy, (and Assistant Elector for the State at large,) will address the people of Marion county at the court-house in Lebanon, this afternoon at one o'clock.

He will also address the people at Campbellsville, on Thursday, the 2nd; at Columbia, Friday the 3d; at Greensburg, Saturday the 4th. Speaking will commence at one o'clock.

PORTRAITS OF PRESIDENTIAL CANDIDATES.—We have received from the Brother Jonathan office, New York, a sheet of six finely engraved portraits, viz: Buchanan and Breckinridge—Fremont and Dayton—and Fillmore and Donelson. Send a three cent postage stamp to B. H. Day, 48 Decker Street, New York, and you will get the whole six of these portraits free of postage. Cheap enough!

The Springfield Fair commences on next Tuesday. We hope Marion will be well represented on the Grounds, and we know she will get her share of the premiums.

The Democracy and "the rest of mankind," residing in this and adjoining counties, are earnestly requested to bear in mind that Hon. LYNN BORN, will deliver a speech in the Courthouse of Lebanon, on Monday next on the political topics of the day. A crowded audience is requested to hear the veteran of the 1st.

Peaches are very abundant in the neighborhood of Paducah, and are selling at from 20 to 40 cents per bushel.

Since it has been ascertained that the Black Republican party have not yet selected an electoral ticket in Pennsylvania, the Fillmourners are rejoicing exceedingly. They think that their candidates will carry the State, if Buchanan and Fillmore be the only candidates there. But their joy will be of short duration, for, be assured, the Republicans will not let so bright a prize slip through their fingers without making an effort. That the Democratic candidates will carry the State under any event, there is not the shadow of a doubt; but when the Republicans do select their ticket, it will only render that event the more certain; for, whilst it will not materially injure the Democratic party it will prove most disastrous to Mr. Fillmore. Hence their exultation in their imagined security.

Messrs. D. & D. W. Phillips are in receipt of a large and superior stock of Fall and Winter Dry Goods, direct from the East. Give them a call.

We hope to see a large attendance at the court-house to-day to hear our young and talented orator, JONAS YOUNG BROWN, in his defence and expounding of true Democracy.

COL. BEN. SELBY, formerly of this place, and CAPT. WM. J. HEADY, are to address the people of our town on next Saturday, the 4th inst.

Let us all hear them.

They also speak together at Greensburg, on Monday, Oct. 6th; at Columbia, on Tuesday, Oct. 7th; at Campbellsville, on Wednesday, Oct. 8th; at Springfield, on Thursday, Oct. 9th; at Bardonia, on Friday, Oct. 10th; and at Mt. Washington, on Saturday, Oct. 11th.

The ladies are particularly invited to attend these meetings.

Speaking will commence each day at one o'clock precisely.

Attention is called to the advertisement headed "Lost."

The National Intelligencer of Wednesday, 24th ult., says: "We have understood that the President will not, at present, receive a Minister from Nicaragua, owing to the unsettled political condition of that Republic."

## The First Annual Fair

Of the Nelson County Agricultural and Mechanical Association.

Will be held on the Fair Grounds, near Bardonia, Ky., commencing TUESDAY, OCTOBER 21st, 1856, and to continue four days.

The grounds being handsomely enclosed and the amphitheatre completed, there will be ample room and accommodation for all who see proper to attend.

AN ELEGANT TRIBUTE.—The following tribute from a neutral paper, the New York Sun, is well deserved and truthful. We commend it specially to the attention of young men:

"The present position of the Democratic party is truly a great one. Whatever of moral power has marked its past history and brilliant triumphs, it has been reserved for the present period to invest its sublime principles with every combination of beauty and excellence. Hitherto opposed by a powerful and natural antagonism embodying an elevated and dignified hostility, well organized and led by exalted patriotism, it is now virtually, even by this old enemy, recognized as the party of the country, against which they can no longer wage conscientious warfare. There is no longer a Whig party. This is, indeed, a tribute to the Democratic party, which the most enthusiastic of its disciples could never have anticipated. It is, in truth, a wonderful admission of the purity of its creed and the blessings of its tendencies by that powerful party long combatted, both its men and measures."

ILLINOIS ALL RIGHT.—A friend of ours lately had an interview with several distinguished democrats of Illinois, and was assured by them that the State was just as certain for Buchanan as South Carolina or Virginia. The tour of Senator Douglas throughout the State was a great popular ovation, the people by thousands flocking to pay the tribute of respect and honor to that distinguished statesman.—*Cin. Enq.*

Nine cheers for the man who charged and proved upon Henry Clay, bargain and corruption.—*A. J. Donelson.*

We cordially approve of, and endorse, the nomination of Andrew Jackson Donelson, for Vice-President.—*Whig Convention at Baltimore.*

Is not this an endorsement of the charge of bargain and corruption against Mr. Clay? And yet these same men have the unflinching impudence to abuse old line whigs for supporting Buchanan!

Are not such men knaves or fools?—*Lou. Courier.*

Many of our readers will doubtless remember the Hon. Jos. L. White, a member of Congress from the Madison (Ind.) district, who made such powerful and telling whig speeches in this city in the canvass of 1840. The New York Journal of Commerce says he lately made a speech in Otsego county, in that State, in favor of Buchanan. He said he preferred Fillmore, but supporting him was of no use, and he wanted to beat the black-republicans anyhow.—*Lou. Cou.*

THE METHODIST EPISCOPAL CHURCH SOUTH.—The Western Christian Advocate gives the following summary of Southern Methodism:

"Southern Methodism has now six bishops—the Rev. Messrs. Soule, Andrew Paine, Pierce, Cutley, and Kavanaugh—Two have died since its organization—Drs. Capers and Bascom. The have to attend twenty-two annual conferences, besides the Pacific, embracing an immense region, from Virginia to Texas and the Indian Territory. Some of these bodies are very large. In South Carolina there are over 45,000 colored members; in Georgia more than 20,000; in Alabama nearly 20,000, &c. Whole number of traveling preachers, 1,824; supernumerary, 150; local, 4,357; white members, 428,512; colored, 164,584; Indians, 3,757; total, 603,303. The increase last year was over 23,000. The Southern Methodist Church now numbers more than 300 missions, domestic and foreign; 270 missionaries; 70,000 mission members, with 25,000 pupils in the mission schools. There are missions among the people of color, the German population at the South, the Indian tribes, in China and California, (now in the Pacific conference.) The society has been in existence since 1854, and from \$68,000 its annual receipts have reached nearly \$170,000. Southern Methodism has made rapid advances in its educational efforts, having not less than 8,000 students in its numerous colleges and academies. In 1845 its Sunday School Society was formed. Now there are over 2,009 schools, nearly 93,000 scholars, 14,000 teachers, and 17,000 volumes in their libraries.—Five thousand dollars have been collected for the tract cause."

Nicaragua.—President Walker seems to be in rather a desperate fix with his new authority in Nicaragua. The last steamer brings news of a most extraordinary decree issued by him, declaring all ports of Central America, save San Juan del Norte and San Juan de Sur, under blockade. As he has not a single vessel to enforce his decree, his precise object is not apparent. If report can be relied on, his prospects are soon to be decided by a battle. Guatemala is said to be advancing with four thousand men under Carrera, and Costa Rica has declared her intention to try her luck again under the same commander. Rivas still holds his position at Leon with seven hundred men. If deserters from Walker are to be believed at all, his position is very critical. His men are not attached to him, and with the combinations against him, the gentleman has anything but a path of roses before him, to say the least.

EELS IN WATER PIPES.—One of the service pipes at the Galt House in Boston, Massachusetts, was obstructed last Saturday, and on examination, an eel 25 inches long, and another three-eighths of an inch in diameter, were found jammed in a two-inch pipe. The largest was dead.

NEW CARBINE.—A new carbine, on an improved principle, has been exhibited at Albany, N. Y. It can be loaded with seventy five balls in ten seconds. No caps, no priming, and no powder is required, except that which is contained in the ball. The ball is described as a patent loaded ball, on the minnie principle, and is made so as to be perfect water proof.

BETTING ON ELECTIONS.—The rules that govern betting on elections are very plain and simple, and are just these: If the candidate you bet on withdraws, or is withdrawn by his friends, you lose the bet. If either of the candidates die before the election, the bet is drawn. When nothing is said about the terms of the bet, at the time the bet is made, these are the rules that invariably govern.

THE FIRST GUN FROM OHIO.—An election for justice of the peace, warmly contested upon political grounds, lately came off in Miami township, Perry county. It resulted in the success of Hardin, dem., by sixteen majority. Last fall Chase beat Medd fifty votes in the same township. Democratic gain, sixty-four.

HOW STANDS THE RECORD.—In 1840, Mr. Buchanan addressed a Democratic Convention in Pennsylvania as follows:

"The Whig party had in Mr. Clay a candidate of whom they might be justly proud—a man of bold and fearless heart, a man of bold and common-law eloquence, and a man of distinguished ability. Although opposed to his political principles, yet I have ever felt for him the highest regard."

And yet, in the face of the above declaration, Mr. Buchanan has been pronounced "the slanderer of Henry Clay."

Modest!—The Journal announces editorially a k. n. mass meeting at Bardonia, on the 2nd of October, and very modestly says that "among the distinguished gentlemen who will certainly be in attendance" is—*Geo. D. Prentiss!*

*Lou. Courier.*

"I would not vote for Mr. Buchanan under any state of case. He never saw the day since God Almighty made that crooked neck of his, that I would vote for him!"—*Speech of Hon. Humphrey Marshall.*

We give the above as but a specimen of the classical, chaste, statesmanlike, courteous, and elegant oratory with which Mr. Humphrey Marshall entertained an audience in our city last evening.—*Lexington Statesman.*

A chicken fancier is trying to get up a new race of pullets by crossing weather cocks with Shanghai hens. We shall watch his success with much interest.—This is a progressive age. Rope walks will yet be made to trot.—*Lou. Dem.*

## Counterfeit Coin.

AN OUTRAGE BY A POLITICAL PRIEST.—A correspondent sends us the following communication from Charleston, O. It is the facts as stated, the "priest" ought to be held up to deserved obloquy and scorn and kicked out of the pulpit as soon as possible, as being morally unfit for the position:

"At a meeting of the Black republicans, held in South Charleston, O., on Thursday, September 11, a circumstance occurred that is regarded as detestable by all who do not belong to that class of divines who blasphemed against the Kansas and Nebraska territorial bill. It can be told in a few words. A reverend, meeting one of his most devout and truly christian members, who was passing silently through a crowd assembled at the corner of one of the streets, accosted him thus:—'You my friend, are member of the Methodist Episcopal Church and a christian, and are well acquainted with the discipline of our church; then, how dare you ever vote for James Buchanan?' But, what has caused a greater abhorrence is about sixty five years old, an old grey-headed man, whose furrowed cheek and wrinkled brow denote that he has spent many years in the service of his Master; and now, in his declining years; that he may be censured and insulted by his own minister, a man of only twenty-five years, has not only deeply affected his own feelings, but those of a large circle of friends and relatives."—*Cin. Enquirer.*

We publish the following, showing another falsehood resorted to against the Democratic party. Everybody in Kentucky knows that the statements alluded to are unmitigated lies. Cassius M. Clay, and his small party of abolitionists, showed what party they belonged to, when Messrs. Powell and Dixon ran for the office of Governor. It is well known that the Whig party always had a majority in this State, and had then; but Clay came out for Governor, and three or four thousand votes, and Powell, Democrat, was elected, simply because this vote taken off was Whig. That Clay and his party are democrats, is a falsehood, as everybody knows.

If the informant knows anything about the intimacy between Messrs. Breckinridge and Clay, he knows more than we do.—The people of Kentucky don't inquire into the private relations of men. We presume, however, Mr. Breckinridge treats Mr. Clay as he does everybody else, like a gentleman:

"GREENVILLE, N. C., Sept. 19.

"MESSRS. EDITORS.—Gents: Inclosed you will find a scrap cut from the American Campaigner, of the 8th inst., published at Knoxville, Tenn. I have heard the same charge made against Major Breckinridge several times in the last few days, and I have given it the lie on all occasions; and there is one — on Kentucky, who professes to be a democrat, but I know he never was. This man is telling democrats secretly that C. M. Clay has from five thousand to ten thousand adherents in Kentucky, and that they all belong to the democratic party. He further states that there is too great an intimacy existing between Major Breckinridge and C. M. Clay, to suit the people of Kentucky. These statements he made to —, of Westwood, Rockingham county, N. C. Yours, in haste."

Here is the extract from the Campaigner:

"J. C. BRECKINRIDGE.—The small orators of the locofoco school, boast that nothing is said against their Vice Presidential candidate, because he has a clean record. We have regarded him as the tail of a ticket only, whose head has sins enough to keep us employed in exposing them. Mr. Breckinridge is no more acceptable to us upon the great Southern question, than is Buchanan or Fremont. No one denies, so far as we are advised, that John C. Breckinridge voted the emancipation ticket, in Kentucky, when that question was before the people. This is enough for us, and should be for all true Southern men. He voted on this great abolition question with Cassius M. Clay and the rest of the Kentucky abolitionists."

This is the climax. J. C. Breckinridge was an opponent of the emancipation party, and elected to the Legislature from Fayette county, an opponent of the emancipation party. How such a lie could get started upon a man whose position is so well known on this question, and who has since been twice elected to Congress in the strongest pro-slavery district in the State, it is rather difficult to conceive. It is a pretty story, that a party that promised to eschew the slavery question, and who denounce the Democracy as a southern sectional party, should invent lies at the same time, to make out Democrats as the anti-slavery.—*Lou. Dem.*

Hon. Archie Dixon reached this city on Friday night from Lexington. He is in very bad health, and is entirely unable to enter actively into the canvass. He hopes, however, to be able to meet the people of Woodford on the 4th of October. We sincerely hope that he may be, for there is no man in the South who can do more good for his country at this perilous juncture than Gov. Dixon. Could he but reach every county in Kentucky before November, his glorious and thrilling eloquence would arouse the heart of the State to its danger, and would carry his old friends in thousands to the polls for Buchanan and Breckinridge.—*Lou. Times.*

Gypsum or Plaster of Paris is among the treasures opening up to Virginia through the Virginia and Tennessee Railroad. The Norfolk Herald notices its receipt in that city through this channel.

ABOLITION DESIRE TO DEPOSE THE ALMIGHTY.—The Richmond Dispatch, commenting on Burlingame's declaration that "we must have an anti-slavery constitution, an anti-slavery Bible, and an anti-slavery God," says: "All three are against abolitionism, and therefore it calls new ones. It seeks to depose the Almighty from his throne, and place upon it an abolition God—in other words, the devil, who was the first rebel, and the father of abolitionists. The French, in the phrensy of their revolutionary madness, deified a prostitute. The black-republicans would go as far—would deprive the Almighty of his sceptre, and place Satan or Giddings on the seat of universal empire. We rather suspect they will meet with indifferent luck. We don't wonder that they want another God, to they have nothing to hope from the God of the Bible, for their gr at captain failed in his attempt at abolishing the Ruler of the universe, and they are not likely to be successful."

The Fillmore papers of the South have endeavored to excite distrust of Mr. Buchanan among slaveholders, and for that purpose have gone back thirty or forty years, to find something on the subject of slavery to prove that he is not worthy of the confidence of the South. The Fremont papers of the North, on the other hand, are sure he is not the man for the abolitionists and freesoilers. One of them, the New York Evening Post, says:

"The cause of those who are striving to force slavery upon the Territories, is undoubtedly as safe with Mr. Buchanan, if he should be elected, as it could be with any man. \* He is a perfectly safe man for the slave interest."

The art of pleasing is said to be a difficult one, and it may be so. There are some men, some women, and some children, that the Democrats never have pleased, and never will please, and that they don't want to please, either. We should be very sorry if they did.—*Lou. Democrat.*

PAIRIE CHICKENS.—The sporting season has fairly begun in Iowa. The Fort Dodge Sentinel of the 4th ult. thus speaks on the subject:

"The lovers of hunting are 'bagging the game' in the shape of prairie chickens and such like, by the score. These birds are now in fine order, fat, plump, and tender."

Hon. A. P. Willard, Gov. Wright, and Senator Bright, of Indiana, all speak in the most confident terms of the success of the Democracy in that State, in October. The skies are bright and brightening, and we do not doubt for a moment that Indiana will give Willard a very decided majority.

THE BLACK REPUBLICANS FOR NEGRO SUFFRAGE.—At Bucyrus a large number of negroes were in procession at a Fremont meeting. Chase made a speech, and assured these darkies that the time was not far distant when they could not only march in procession, but vote also.

A few days since a Kentuckian came to this city for the purpose of making sale of some tobacco. He called at a certain store, the proprietor of which, after examining the tobacco, pronounced it a good article, and stated to the vendor that he was in want of some, "but," continued he "I cannot purchase of you."

"Why not?" asked the other.

"Because you are a Southerner," was the reply.

This circumstance, having gained the ear of a negro worshipper, he announced it at a meeting of the Black Republican Club, whereupon three deafening cheers were given for the Columbus merchant.

Now, what right, we would ask, has this miserable humbug of a party to use the word UNION in their mottoes, or to place thirty-one stars upon their flags and banners?—*Ohio Statesman.*

HEALTH OF NEW ORLEANS.—The Bulletin of the 20th inst. says:

The weather during the week has been pretty warm and dry, the streets having become quite dusty. The nights begin to be a little cool, just enough for comfort. The public health remains excellent. It was never better. Our people continue to return from the summer resorts, and the city consequently is every day filling up. Business is rapidly reviving, the receipts have been much larger than last week; and altogether our community is fast assuming the stir and bustle of the business season, thus early. Our extraordinary exemption from sickness is evidently telling favorably already upon commercial interests, and they will, we doubt not, continue to feel its salutary influence throughout the season, as well as succeeding seasons.

Miss Murray, a distinguished authoress, thus winds up her book of the United States:

One might as well hope to improve the morals and increase the happiness of an idiot by turning him out of an asylum, as to hope benefit for the negro Abolitionism. The truth is, Abolitionism does not seek to benefit the negro race; if they did, they might have a fine valley for the over-bursting of their bowels of compassion in caring for the poor, degraded free negroes among them. And instead of their prayer and penance for the well-clothed, happy negroes in the South, whose eyes stick out with fatness, they would do much better to remember the spirits of those who have been enticed from their happy homes in the South, and died from hunger and cold in Canada.

It is said that the ladies are fast becoming economical, as they are doing all in their power to avoid anything like waste!

**A Horrible and Fiendish Assassination.**

MARION, TEXAS, Sep. 4.  
One of the most revolting assassinations at which the heart sickens, and which have become so common in these days of enormity, was committed in this county on the night of the 20th ult.

The victims were A. E. Moore, Esq., his wife, and a lovely orphan girl, twelve years old, who was, by adoption, one of the family. They had just seated themselves at the supper table in the entry of their house, when the assassin, coolly fixing a rest for his gun by propping a board between the two stems of an althea twenty steps from the table, and in full view of his unsuspecting victims, discharged at them a double barreled gun. At the first fire Moore fell. His wife, who sat on his left, exclaimed, "Lord have mercy!" and at that instant received the contents of a second gun, fired in quick succession. She fell instantly, and the orphan girl, who was seated on Moore's right, and between Mr. Moore and the assassin, sprang into the house and called for camphor, but before the servants could get to her she was dead! Mr. Moore received three shots in the head, and four in the right side of the chest. His arm above the elbow was much shattered and the hand shot through. He lived a few minutes, but never spoke. Mrs. Moore received four shots in the face and never seemed to have breathed after she fell. A single shot struck the young girl a little to the left of the spine, passed through the heart, and coming out of the left nipple, lodged in her clothes. I have this shot in my possession; it is evidently a slug.

The coroner's inquest did not elicit anything sufficient to found an arrest upon.—*N. O. Delta.*

A train of cars for the Nashville railroad passed up Fifth street yesterday, on 10 table rails, for the depot of that road. They were not making very rapid time, but seemed to get there.

By-the-way, speaking of this road, reminds us of a fact which is much interest to Louisville. We are informed that the receipts for freights on the road for the last current month, were \$4,400. When it is considered that only thirty miles of the road are finished—that this thirty miles terminates in the woods—and that navigation is entirely suspended—these receipts show remarkably well. They are much better, we are told, than the Frankfort exhibited for two years after its completion.—*Lou. Times.*

We understand that a telegraphic dispatch has been received in this city from Southern Kentucky, stating that one-fourth of the tobacco crop was destroyed by frost on Monday night.—*Lou. Times.*

We are requested to state that the Hon. D. A. Smalley chairman of the Democratic National Committee, is in Washington, and will remain here until the close of the political campaign, and devote himself exclusively to the business of the committee.—All letters addressed to him in relation thereto should be directed to this city.—Democratic papers will please copy.—*Washington Union.*

FROM MONTEVIDEO.—An arrival at New York, from Montevideo to July 26, represents that place in a very unsettled state, as a revolution was daily expected.

Our fellow-citizen, Phillip Tompert who has returned from a three week tour in Indiana, assures us that 99 out of every 100 of the Germans in Indiana are for Buchanan and Breckinridge. Mr. Tompert was traveling constantly, and spoke to many large assemblages of the people, and we doubt not with great effect, as he is a man of fine talents and great ability as an orator. He is confident that Indiana will vote for Willard by a handsome majority.—*Louisville Times.*

**QUANTITY OF RAIN WATER.**—Every inch of rain on a roof yields two barrels to every space of ten feet square; and seventy-two barrels are yielded by the annual rain in this climate, on a similar surface.—A barn thirty by forty yields annually 864 barrels; this is enough for more than two barrels a day, for every day in the year. Many have, however, at least five times that amount of roofing on their dwelling and other dwellings, yielding annually more than 4,000 barrels of rain water, or about twelve barrels or 150 ordinary pailfuls daily.

**SAD CASUALTY.**—During a storm at Independence, Missouri, on Wednesday evening last, Miss Phoebe Ann Hughton was instantly killed by the falling of a large tree. She was passing from Col. Ralston's to the residence of her uncle, T. Young, in company with a daughter of Mr. Y., when the fatal accident occurred.

**MURDER AND ROBBERY IN KANSAS.—**DEATH OF GEO. GREATHOUSE.—We regret to announce to our readers the death of this estimable young man, who was treacherously murdered and robbed by the Abolitionists at Franklin, on Saturday evening, the 14th inst., after having been decoyed into that place by their representations that they were friends. A more heinous or assassin-like murder than this, has never been recorded.

Mr. Greathouse had some two or three thousand dollars upon his person at the time, of which he was robbed, together with everything of value he had, taking even his coat, boots and socks.

Mr. G. was a native of Woodford county, Ky., but has for the last four years been residing in California, from whence he has recently returned on a visit. He had been in our city but a short time, where, by his gentlemanly deportment and amiable manners, he had made a host of friends, who deeply mourn his untimely end. He was a member of the Independence company of Territorial militia, commanded by Capt. Patterson, and was killed by his fellow soldiers, on Monday evening, with the honors of war.

Gov. Geary, of whom Greathouse is a relative, has promised to use every exertion in his power to bring the murderers to justice.—*Independence, Mo., Dispatch.*

**VIGILANCE COMMITTEE IN FRANKFORT.**—We learn that in Frankfort, on Monday last, band-bills were found posted in different parts of the city, naming some dozen free negroes who were required to leave the place before six o'clock on Monday evening. They are persons whose presence has for some time past been considered detrimental to the best interests of the community, and recent events seem to have induced an investigation, of which this notice to leave is the result.

All the persons notified left before the hour named except two, and the Committee stated those two on Monday night.

The Frankfort Commonwealth of the 26th inst., says,

We have had more or less frost in this vicinity for three or four nights past, and on Tuesday night it was very severe. The vines are killed, and the late corn and tobacco considerably injured.

**JUSTLY PUNISHED.**—In a recent trial of the Chenango Circuit, Miss H. D. Dunham recovered a verdict of \$600 against Samuel K. Wiley, for libel contained in a dirty valentine which he sent her through the post office, and a copy of which, it was alleged, he read and expanded in the shops and stores of Coventry. This is the first instance we are cognisant of where a party has been punished for such an act.

**THE FUTURE GOVERNOR OF INDIANA.**—Hon. A. P. Willard, the future Governor of Indiana, delivered a powerful address to a vast assemblage of his fellow-citizens at New Albany, on Friday evening last. It is said to have been one of the largest night-meetings ever assembled in New Albany.—*Lou. Dem.*

**MORE VALOROUS THAN DISCREET.**—One of the lost sheep of a wandering tribe, in the neighborhood of Bardonia, on the Louisville and Frankfort Railroad, on Saturday, arraigned himself a *lam-rant* upon the track in front of Captain Richardson's train, and disputed the right-of-way.—Before Capt. R. could reverse his engine the animal was a good subject for mutton chops.—*Lou. Democrat.*

In New Jersey Mr. Filmore is unquestionably ahead of the other candidates in the opinions of the people—in Pennsylvania he is stronger than Fremont is, and his friends are besought by the supporters of the latter to form a mutual electoral ticket, which we hope they will not do—in Connecticut and Rhode Island they are powerful to day, and gradually increasing in number,—and in Massachusetts we by no means despair of acquiring the electoral vote of the State for him, when we see that the statesmen and the lawyers, and active business merchants, and the sturdy respectable and most influential mechanics of our vicinity are almost entirely in favor of him for President.

The above is from the American of this morning. Pray what has our vicinity to do with Massachusetts? That man must indeed be pitifully ignorant who can be imposed upon by such gross misrepresentations.—*Baltimore Republican.*

**FISHING IN HOURS.**—"Belle Briton," of the New York Mirror, has been angling from off the rocks at Newport. She says that "Indies who go fishing should leave their hoops at home, as sitting in them on the rocks is as hard as sitting on a gridiron."

She should have added, too, that in the excessive hot weather, under such circumstances, they would be apt to receive the fabulous mark of initiation into a Masonic Lodge.

**PARIS.**—Some one writes of Paris—"This splendid city teaches idleness—for the golden calf—for the senses—it places the ballet girl higher than the orator; the cook, higher than the poet; the millionaire higher than all—for with his millions he can command ballet girl, orator, cook, and poet. In Paris the heart must bronze or break."

**PLAIN TALKING.**—They have a straightforward way of doing business in Arkansas, that is perfectly refreshing. A minister out there, a few weeks ago, undertook to come down on slavery. The next day one of the "Deacons" dropped him a line saying that "people in this diggings went to church to hear the devil abused, and not slavery; and if he persisted in 'violating their taste any further,' all that he had to say was that 'these still grew leathers' and 'North Carolina tar.'"

**CONSUMPTION.**

Successfully Treated by Inhalation of Medicated Vapors.

BY Johnson Stewart Rose, M. D., Fellow of the Royal College of Physicians, and for years senior Physician in the London Royal Infirmary, for diseases of the Lungs.

In this age of progress, Medical Science has contributed her full share to the general welfare; and that which shines resplendent, the brightest jewel in her diadem, is her last and greatest gift, MEDICATED VAPOR INHALATION, in the treatment of CONSUMPTION, BRONCHITIS, ASTHMA, and kindred affections.

All must see the absurdity of treating Consumption through the stomach, by filling it with aniseed and drugs; the disease is not in the stomach, but in the lungs, and by inhaling medicine in the form of Vapor, I apply the remedy directly to the diseased organ. There is, therefore, no case so hopeless that inhalation will not reach the earnestly appealed to common sense of all afflicted with lung disease, to embrace at once the advantages of inhalation.

I claim for inhalation in the treatment of consumption, &c. a place amongst the priceless gifts that nature and art has given us, that "our days may be long in the land," and as the only ark of refuge for the Consumptive! A method not only rational, but simple, safe, and efficacious.

I have pleasure in referring to 108 names, residents of New York and neighborhood, who have been restored to vigorous health, about one-third of the above number, according to the patients' own statements were considered hopeless cases.

The inhaling method is so simple, safe, and consists in the administration of medicines in such a manner that they are conveyed into the lungs in the form of vapor, and produce their action at the seat of the disease. Its practical success is demonstrated by the unanimous opinions of the medical world, and establish the entire CUREABILITY of Consumption.

Applicants will please state if they have been coughed from the lungs, if they have lost flesh, have a cough, night sweats, and fever, and how much they expectorate, what the condition of their stomach and bowels. The Medicines, Apertus, &c. will be forwarded to any part.

**TESTIMONY.**

"We, the undersigned, practitioners in medicine, cheerfully recommend Dr. Johnson's Rose's method of treating diseases of the throat and lungs, as the best and most effectual ever introduced into medical practice. Our convictions are based upon having several of our own patients, confirmed consumptives, restored to vigorous health after a few months treatment by Dr. Rose."  
In the above named diseases, the application of "Medicated Vapors" inhaled directly into the lungs may be justly considered a great boon to suffering humanity, rendering consumption a perfectly curable disease.  
Dr. Rose deserves well of the profession for his strenuous and unvaried exertions in bringing this successful and only reliable method of treating consumption to such a degree of perfection as is now achieved.

**Special Notices.**

When death is at the door, the remedy which would have saved life, if administered in time, comes too late. Do not trifle with disease. Rely upon it, that when the stomach will not digest food; when faintness and lassitude pervade the system—when the sleep is disturbed, the appetite feeble, the mind lethargic, the nerves unnaturally sensitive, and the head confused—rely upon it, that when these symptoms occur, the powers of vitality are failing, and that, unless the mischief is promptly checked, life will be shortened, as well as rendered miserable. Nature has a way of her own to accumulate in favor of one remedy, that Hoodland's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, will immediately abate, and, in the end, entirely remove all of these disorders as surely as a mathematical process will solve a problem. Who, then, will endure the agony, and the risk of life, with health and safety within reach? See advertisement.

**INVALIDS** recovering from the effects of Fever, Billis Diseases, or long continued illness of any kind, will find Carter's Spanish Mixture the only remedy which will restore their drooping constitutions, expel all bad humors from the blood, excite the liver to a prompt and healthy action, and by its tonic properties, restore the patient to life and vigor.  
We can only say TRY IT. A single bottle is worth all the so-called Sarsaparilla in existence. It contains no Mercury, Opium, or any other noxious or poison drug, and can be given to the youngest infant without hesitation. See the certificates of wonderful cures around the bottles. More than five hundred persons in the city of Richmond, Va., can testify to its good effects.  
See advertisement.

**ARTIC PILLS**

These pills have a powerful influence on the system, and are a most valuable remedy for all diseases of the blood, liver, and stomach. They remove all bad humors from the blood, excite the liver to a prompt and healthy action, and by its tonic properties, restore the patient to life and vigor.

**Hurley's Sarsaparilla.**

Of all the remedies that have been discovered during the present age for the "cure" of blood and skin diseases, none equal this wonderful preparation. Only three years have elapsed since the discoverer (who spent a decade in studying, experimenting, and performing) first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy for certain diseases of which they have knowledge.  
All other compounds or syrups of the root have hitherto failed to command the sanction of the faculty, because on being tested they have been found to contain noxious ingredients, which neutralize the good effects of the Sarsaparilla, and often times injure the health of the patient. It is not so with Hurley's preparation.  
This is the pure and genuine extract of the root, and will, on trial, be found to possess a certain and perfect cure of the following complaints and diseases:  
Affections of the Lungs, Habitual Costiveness, Debility, Indigestion, Diseases of the Kidneys, Liver complaint, Dyspepsia, Piles, Erysipelas, Pulmonary diseases, Female Irregularities, Scrofula, or Kings Evil, Fistula, Syphilis, and all Skin Diseases.  
Besides curing the above it is known to be a great and powerful tonic, purifying the blood, and invigorating the system. In short, it is without exception, in the cases mentioned, and its general effect upon the system in the most efficacious, as it is the most desirable remedy of the age. It is already extensively used throughout the country, and is fast obtaining an European reputation. The instances of cures it has effected are daily coming to the proprietor's knowledge, and he has no hesitation in recommending it to all who desire to procure relief from suffering. One bottle being tried, its effects will be too apparent to admit of further doubt.

Recollect Hurley's Sarsaparilla is the only genuine article in the market.  
Price 1 per bottle, or six bottles for 5.  
For sale at the manufacturers, corner Seventh and Green streets, Louisville, Ky. And by L. H. NOBLE, and L. A. SPALDING, Lebanon, Ky.
